INDEPENDENT AUDITORS' REPORT

To the members of Memon Securities (Private) Limited

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the annexed financial statements of M/s. Memon Securities (Private) Limited (the Company), which comprise the statement of financial position as at June 30, 2023, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information ('the financial statements'), and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XXIX of 2017), in the manner so required and, respectively, give a true and fair view of the state of the Company's affairs as at June 30, 2023 and of the loss, total comprehensive loss, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XXIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

-:2:-

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XXIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XXIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business;
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980); and
- e) the Company was in compliance with the requirement of section 78 of the Securities Act, 2015 and section 62 of the Futures Market Act, 2016, and the relevant requirements of the Securities Brokers (Licensing and Operations) Regulations, 2016 and Futures Brokers (Licensing and Operations) Regulations, 2018 as at the date on which the statement of financial position was prepared.

The engagement partner on the audit resulting in this independent auditor's report is **Mr. Muhammad Rafiq Dosani**.

Director

Memon Securities (Private) Limited

Notes to the Financial Statements

For the year ended June 30, 2023

1. STATUS AND NATURE OF BUSINESS

Memon Securities (Private) Limited ('the Company') was incorporated in Pakistan on August 03, 2000 as a private limited company under the Companies Ordinance, 1984 (which has now been repealed by the enactment of the Companies Act, 2017 in May 2017). The Company is a Trading Rights Entitlement Certificate (TREC) holder of Pakistan Stock Exchange Limited (PSX) and is categorized as a 'Trading and Self-Clearing' broker under the Securities and Exchange Commission of Pakistan (SECP). The Company is also a member of Pakistan Mercantile Exchange Limited (PMEX).

The principal activities of the Company are investments, share brokerage and Initial Public Offer (IPO) underwriting.

The registered office and other office of the Company is situated at Room Nos. 151 to 154, Stock Exchange Building, Stock Exchange Road, Karachi.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements of the Company have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:

- ✓ International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standard Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of, and directives issued under, the Companies Act, 2017.

Where the provisions of, and directives issued, under the Companies Act, 2017 differ from the IFRS Standards, the provisions of, and directives issued, under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

In these financial statements all items have been measured at their cost historical cost except for short term investments in quoted equity securities which are carried at fair value.

2.3 Functional and presentation currency

The financial statements are presented in Pakistan Rupees, which is the Company's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with the approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

	<i>Note</i>
(a) Useful lives, depreciation methods and residual values of property and equipment;	<i>1.1</i>
(b) Useful lives, depreciation methods and residual values of investment property;	<i>1.3</i>
(c) Provision for taxation.	<i>1.6</i>

2.5 New Accounting Pronouncements

2.5.1 New and amended standards and interpretations mandatory for the first time for the financial year beginning July 01, 2022:

(a) IAS 37 - Onerous contracts

Effective date:

January 01, 2022

Under IAS 37 'Provisions, Contingent Liabilities and Contingent Assets', a contract is 'onerous' when the unavoidable costs of meeting the contractual obligations – i.e. the lower of the costs of fulfilling the contract and the costs of terminating it – outweigh the economic benefits. The amendments clarify that the 'costs of fulfilling a contract' comprise both the incremental costs – e.g. direct labour and materials; and an allocation of other direct costs – e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract.

Effective date:

January 01, 2022

(b) IAS 16 - Proceeds before an asset's intended use

Amendment to IAS 16 'Property, Plant and Equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss. The amendments apply retrospectively, but only to items of PPE made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

The other new standards, amendments to approved accounting standards and interpretations that are mandatory for the financial year beginning on July 01, 2022 are considered not to be relevant or to have any significant effect on the Company's financial reporting and operations.

2.5.2 New / revised accounting standards, amendments to published accounting standards and interpretations that are not yet effective

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 01, 2022 and have not been early adopted by the Company:

(a) IAS 1 - Disclosure of accounting policies

Effective date:

January 01, 2023

Amendments to IAS 1, 'Presentation of Financial Statements' includes requiring companies to disclose their material accounting policies rather than their significant accounting policies, clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed and also clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

(b) IAS 8 - Definition of accounting estimates

Effective date:

January 01, 2023

The International Accounting Standards Board (the Board) has issued these amendments to end diversity in treatment of accounting estimates and clarified how companies should distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. Developing an accounting estimate includes both selecting a measurement technique (estimation or valuation technique) – e.g. an estimation technique used to measure a loss allowance for expected credit losses when applying IFRS 9 Financial Instruments; and – choosing the inputs to be used when applying the chosen measurement technique – e.g. the expected cash outflows for determining a provision for warranty obligations when applying IAS 37 Provisions, Contingent Liabilities and Contingent Assets. The effects of changes in such inputs or measurement techniques are changes in accounting estimates.

TLB

- Effective date:**
January 01, 2023
- (c) **IAS 12 - Deferred tax**
- The amendments narrow the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.

- Effective date:**
January 01, 2024
- (d) **IAS 1 - Classification of liabilities as current or non-current**
- Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of this amendment, the requirement for a right to be unconditional has been removed and instead, the amendments requires that a right to defer settlement must have substance and exist at the end of the reporting period. This right may be subject to a company complying with conditions (covenants) specified in a loan arrangement. At October 31, 2022, after reconsidering certain aspects of the amendments, the IASB reconfirmed that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability's classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date.

- Effective date:**
January 01, 2024
- (e) **IFRS 16 - Sale and leaseback transaction**
- Amendments impact how a seller-lessee accounts for variable lease payments that arise in a sale-and-leaseback transaction. On initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-and-leaseback transaction. After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognizes no gain or loss relating to the right of use it retains. The amendments introduce a new accounting model for variable payments and will require seller-lessees to reassess and potentially restate sale-and-leaseback transactions entered.

There are number of other standards, amendments and interpretations to the approved accounting standards that are not yet effective and are also not relevant to the Company and therefore, have not been presented here.

Other than the aforesaid amendments, the IASB has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

- IFRS 1 - First Time Adoption of Financial Reporting Standards
- IFRS 17 - Insurance Contracts

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

3.1 Property and equipment

These are stated at cost less accumulated depreciation and impairment losses, if any. Cost include expenditures that are directly attributable to the acquisition of the asset.

Subsequent costs are included in the carrying amount as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the statement of profit or loss during the year in which they are incurred.

Depreciation is charged to statement of profit or loss applying the reducing balance method at the rates specified in note 4. Depreciation is charged when the asset is available for use till the asset is disposed off.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss in the year in which the asset is derecognized.

The assets' residual values, depreciation methods and useful lives are reviewed, and adjusted if appropriate, at each financial year end.

3.2 Intangible assets

Trading Right Entitlement Certificate (TREC) and Membership card of PMEX

The useful lives of these assets are indefinite and hence, no amortization is charged by the Company.

These are stated at cost less impairment, if any. The carrying amount is reviewed at each reporting date to assess whether it is in excess of its recoverable amount, and where the carrying value exceeds estimated recoverable amount, it is written down to its estimated recoverable amount.

3.3 Investment property

Investment properties are held for capital appreciation and is measured initially at its cost, including transaction costs. Investment property is stated at cost less accumulated depreciation and accumulated impairment losses

Depreciation on investment property is charged using reducing balance method in accordance with the rates specified in note 6 to these financial statements. The useful life and depreciation method are reviewed and adjusted, if appropriate, at each statement of financial position date.

3.4 Trade debts

These are carried at their transaction price less any allowance for lifetime expected credit losses. A receivable is recognized on the settlement date as this is the point in time that the payment of the consideration by the customer becomes due.

3.5 Cash and cash equivalents

Cash and cash equivalent are carried in the statement of financial position at amortized cost. For the purpose of cash flow statement cash and cash equivalents comprise cash and bank balances and short term running finance.

3.6 Taxation

Current tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred income taxes are not accounted for if they arise from the initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred income tax is measured using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

A deferred tax asset is recognized only to the extent that the entity has sufficient taxable temporary differences or there is convincing other evidence that the sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilized by the entity. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Further, the carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. If required, carrying amount of deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profits to allow the benefit of part or all of that recognized deferred tax asset to be utilized. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.7 Provisions and contingent liabilities

Provisions

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are not recognized for future operating losses.

Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

3.8 Financial assets

3.8.1 Initial recognition, classification and measurement

The Company recognizes a financial asset when and only when it becomes a party to the contractual provisions of the instrument evidencing investment.

Regular way purchase of investments are recognized using settlement date accounting i.e. on the date on which settlement of the purchase transaction takes place.

The Company classifies its financial assets into either of following three categories:

- (a) financial assets measured at amortized cost,
- (b) fair value through other comprehensive income (FVOCI); and
- (c) fair value through profit or loss (FVTPL).

(a) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it is held within business model whose objective is to hold assets to collect contractual cash flows, and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

(b) Financial assets at FVOCI

A financial asset is classified as at fair value through other comprehensive income when it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

(c) Financial assets at FVTPL

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income, as aforesaid. However, for an investment in equity instrument which is not held for trading, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of the investment.

Such financial assets are initially measured at fair value.

3.8.2 Subsequent measurement

(a) Financial assets measured at amortized cost

These assets are subsequently measured at amortized cost (determined using the effective interest method) less accumulated impairment losses.

Interest / markup income, foreign exchange gains and losses and impairment losses arising from such financial assets are recognized in the statement of profit or loss.

(b) Financial assets at FVOCI

These are subsequently measured at fair value less accumulated impairment losses.

A gain or loss on a financial asset measured at fair value through other comprehensive income in accordance is recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment. Interest is calculated using the effective interest method and is recognized in profit or loss.

(c) Financial assets at FVTPL

These assets are subsequently measured at fair value.

Net gains or losses arising from remeasurement of such financial assets as well as any interest income accruing thereon are recognized in the statement of profit or loss. However, for an investment in equity instrument which is not held for trading and for which the Company has made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of the investment, such gains or losses are recognized in other comprehensive income. Further, when such investment is disposed off, the cumulative gain or loss previously recognized in other comprehensive income is not reclassified from equity to profit or loss.

Dividends received from investments measured at fair value through profit or loss are recognized in the statement of profit or loss when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

3.8.3 Impairment

The Company recognizes a loss allowance for expected credit losses in respect of financial assets measured at amortized cost.

Yfi . . .

For trade debts and receivables from margin financing, the Company applies the IFRS 9 'Simplified Approach' to measuring expected credit losses which uses a lifetime expected loss allowance.

For other financial assets, the Company applies the IFRS 9 'General Approach' to measuring expected credit losses whereby the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. However, if, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

The Company measures expected credit losses on financial assets in a way that reflects an unbiased and probability-weighted amount, time value of money and reasonable and supportable information at the reporting date about the past events, current conditions and forecast of future economic conditions. The Company recognizes in profit or loss, as an impairment loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

3.8.4 De-recognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

The Company directly reduces the gross carrying amount of a financial asset when the Company has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof. A write-off constitutes a derecognition event.

3.9 Financial liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of profit and loss account.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss. Any gain or loss on de-recognition is also recognized in the statement of profit or loss.

Financial liabilities are derecognized when the contractual obligations are discharged or cancelled or have expired or when the financial liability's cash flows have been substantially modified.

3.10 Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet, if the Company has a legally enforceable right to setoff the recognized amounts and the Company intends to settle either on a net basis or realize the asset and settle the liability simultaneously.

3.11 Revenue recognition

Revenue from trading activities - brokerage commission

Commission revenue arising from sales / purchase of securities on clients' behalf is recognized on the date of settlement of the transaction by the clearing house.

3.12 Other income

Mark-up / interest income

Mark-up / interest income is recognized on a time proportion basis on the principal amount outstanding and at the rate applicable.

Running finance	15.1	<u>180,254,395</u>	<u>95,500,727</u>
-----------------	------	--------------------	-------------------

15.1 This represents the amount availed against a running finance facility obtained by the Company from M/s. Bank Al-Habib Limited in order to meet its working capital requirements. As of the reporting date, the limit of the facility was Rs. 300 million (2022: Rs. 300 million). The facility is secured against pledge over shares of listed companies quoted at Pakistan Stock Exchange Limited (as per bank approved list), lien over Treasury Call account. The facility carries markup at the rate of 3-Month KIBOR plus 1 % p.a. (2022: 3-Month KIBOR plus 1 % p.a.).

15.2 As of the reporting date, the amount of unavailed facility was Rs. 119,746 million (2022: Rs. 204,490 million).

16. CONTINGENCY AND COMMITMENT

16.1 Contingency

In the previous years, the income tax authorities had issued Show Cause Notices to various members of the Pakistan Stock Exchange Limited, including the Company, to amend original assessment order under section 122(9) read with section 122(5A) of the Income Tax Ordinance, 2001 for tax year 2017. In this regard, in 2018, the PSX Stock Brokers Association filed a Constitutional Petition before the Sindh High Court (SHC), Karachi and the Company became a party with them. SHC granted stay order in favour of the Petitioners. As at reporting date, the case is still pending for adjudication. However, the management, based on consultation with legal advisor is confident that the eventual outcome of the matter will be decided in favour of the Company, therefore, no provision has been made in this regard.

16.2 Commitment

Revolving guarantee given by a M/s. Habib Metropolitan Bank Limited on behalf of the Company in favour of National Clearing Company of Pakistan Limited (NCCPL) against DFC exposure amounting to Rs. 15 million (2022: Rs. 15 million)

Short term borrowings	13	(180,254,395)	(95,509,737)
		<u>(19,818,154)</u>	<u>26,772,762</u>

23. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties comprise of key management personnel including directors and their close family members and major shareholders of the Company. Remuneration and benefits to executives of the Company are in accordance with the terms of the employment. Remuneration of the Chief Executive and Directors is disclosed in note 18.1 to the financial statements. Transactions entered into, and balances held with, related parties during the year, are as follows:

Maximum exposure to credit risk

The maximum exposure to credit risk at the reporting date is as follows:

	Note	2023	2022
Rupees			
Long term deposits		2,010,200	1,510,200
Trade debts	(a)	1,928,351	2,947,294
Deposits, loans and other receivables		13,243,087	7,196,101
Bank balances	(b)	140,428,336	122,260,855
		<u>177,629,974</u>	<u>133,914,450</u>

Note (a) - Credit risk exposure on trade debts

Credit risk of the Company mainly arises from deposits with banks, trade debts, short term deposits, loans and other receivables. The carrying amount of financial assets represents the maximum credit exposure. To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their net worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful of recovery.

As of the reporting date, the aging analysis of trade debts was as follows:

	June 30, 2023		June 30, 2022	
	Trade debts - Gross	Life time expected credit losses	Trade debts - Gross	Life time expected credit losses
Rupees				
Past due 1 day - 90 days	578,779	-	1,334,112	-
Past due 90 days - 180 days	207,890	-	387,504	-
Past due 181 days - 1 year	182,294	-	322,998	-
More than 1 year	967,392	157,176	902,680	101,047
	<u>1,928,355</u>	<u>157,176</u>	<u>2,947,294</u>	<u>101,047</u>

Note (b) - Credit risk exposure on bank balances

The Company's credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. As of the reporting date, the external credit ratings of the Company's bankers were as follows:

Bank	Rating agency	Short-term Rating	2023	2022
Rupees				
Bank Al-Habib Limited	PACRA	A-1+	159,924,927	111,534,132
Habib Metropolitan Bank Limited	PACRA	A-1+	408,209	466,583
MCB Bank Limited	PACRA	A-1+	-	41,648
Bank Alfalah Limited	PACRA	A-1+	-	10,157,503
National Bank of Pakistan	PACRA	A-1+	18,321	18,321
Habib Bank Limited	JCR-VIS	A-1+	16,879	42,668
			<u>140,428,336</u>	<u>122,260,855</u>

AK

Concentration of credit risk

Concentration of credit risk arises when a number of financial instruments or contracts are entered into with the same party, or when counter parties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. As of the reporting date, the Company was exposed to the following concentrations of credit risk:

	June 30, 2023			June 30, 2022		
	Total exposure-Gross	Concentration	% of total exposure	Total exposure-Gross	Concentration	% of total exposure
	Repos					
Trade debts	1,928,351	-	0.00%	2,947,294	847,172	28.74%
Bank balances	148,428,336	189,924,927	99.69%	122,360,855	122,491,633	99.57%
		<u>189,924,927</u>			<u>122,491,633</u>	

24.1.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of adequate funds through committed credit facilities and the ability to close out market positions due to dynamic nature of the business. The following are the contractual maturities of financial liabilities:

	June 30, 2023					
	Carrying amount	Contractual Cash flows	Six months or less	Six to twelve months	One to five years	More than five years
	Repos					
<i>Non-derivative financial liabilities</i>						
Trade and other payables	181,921,781	(181,921,781)	(181,921,781)	-	-	-
Short term borrowing	188,254,395	(188,254,395)	(188,254,395)	-	-	-
Accrued markup	1,278,568	(1,278,568)	(1,278,568)	-	-	-
	<u>363,274,736</u>	<u>(363,274,736)</u>	<u>(363,274,736)</u>	-	-	-

	June 30, 2022					
	Carrying amount	Contractual Cash flows	Six months or less	Six to twelve months	One to five years	More than five years
	Repos					
<i>Non-derivative financial liabilities</i>						
Trade and other payables	126,925,239	(126,925,239)	(126,925,239)	-	-	-
Short term borrowing	95,508,737	(95,508,737)	(95,508,737)	-	-	-
Accrued markup	911,493	(911,493)	(911,493)	-	-	-
	<u>223,346,469</u>	<u>(223,346,469)</u>	<u>(223,346,469)</u>	-	-	-

24.1.3 Market risk

Market risk means that the future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign exchange rates, equity prices and interest rates. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Market risk comprises of three types of risks: foreign currency risk, price risk and interest rate risk. The market risks associated with the Company's business activities are discussed as under:

ii) **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. As of the reporting date, the Company was not exposed to currency risk since there were no foreign currency transactions and balances at the reporting date.

iii) **Price risk**

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/ mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Presently, daily stock market fluctuation is controlled by regulatory authorities which reduces the volatility of prices of equity securities. The Company manages price risk by monitoring the exposure in quoted securities and implementing the strict discipline in internal risk management and investment policies, which includes disposing of its own equity investment and collateral held before it led the Company to incur significant mark-to-market and credit losses. As of the reporting date, the Company was exposed to price risk since it had investments in quoted securities and also because the Company held collaterals in the form of equity securities against their debtor balances.

The carrying value of investments subject to price risk is based on quoted market prices as of the reporting date. Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, the amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

The Company's portfolio of short term investments is broadly diversified so as to mitigate the significant risk of decline in prices of securities in particular sectors of the market.

Sensitivity analysis

The table below summarizes Company's price risk as of June 30, 2023 and 2022 and shows the effects of a hypothetical 10% increase and a 10% decrease in market prices as at the year end reporting dates. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worse because of the nature of markets and the aforementioned concentrations existing in Company's investment portfolio.

	Fair value	Hypothetical price change	Estimated fair value after hypothetical change in prices (Rupees)	Hypothetical effect on profit / (loss) before tax (Rupees)
June 30, 2023	878,456,056	10% increase	966,301,663	87,845,606
		10% decrease	790,610,450	(87,845,606)
June 30, 2022	792,413,889	10% increase	871,657,478	79,241,589
		10% decrease	713,174,300	(79,241,589)

iv) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

At the reporting date, the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

	2023	2022	2023	2022
	Effective interest rate (%)		Carrying amounts (Rs.)	
Financial assets				
<i>Variable rate instruments</i>				
Balance held in saving accounts	8.5%-12.5%	6%-7.5%	<u>4,298</u>	<u>160,621</u>
Financial liabilities				
<i>Variable rate instruments</i>				
Short term borrowing	3-Month KIBOR +1%	3-Month KIBOR +1%	<u>180,254,395</u>	<u>95,509,737</u>

Sensitivity analysis

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate would not affect the profit or loss and equity of the company.

Cash flow sensitivity analysis for variable rate instruments

The following information summarizes the estimated effects of 1% hypothetical increases and decreases in interest rates on cash flows from financial assets and financial liabilities that are subject to interest rate risk. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risk. The hypothetical changes in market rates do not reflect what could be deemed best or worst case scenarios. Variations in market interest rates could produce significant changes at the time of early repayments. For these reasons, actual results might differ from those reflected in the details specified below. The analysis assumes that all other variables remain constant.

	Effect on profit before tax	
	1% increase	1% (decrease)
	Rupees	
As at June 30, 2023

	<u>363,374,736</u>	<u>223,346,469</u>

25. **FAIR VALUE OF ASSETS AND LIABILITIES**

The Company measures fair value of its assets and liabilities using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 : Quoted market price (unadjusted) in an active market.

Level 2 : Valuation techniques based on observable inputs.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data.

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Company determines fair values using valuation techniques unless the instruments do not have a market/ quoted price in an active market and whose fair value cannot be reliably measured.

The table below analyses assets measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

	Level 1	Level 2	Level 3	Total
	Rupees			
June 30, 2023				
Short term investments	878,456,056	-	-	878,456,056
	Level 1	Level 2	Level 3	Total
	Rupees			
June 30, 2022				
Short term investments	792,415,889	-	-	792,415,889

26. **CAPITAL RELATED DISCLOSURES**

26.1 **Capital management**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

Following is the capital analysis of what company manages as capital:

	2023	2022
	Rupees	
Borrowings:		
Short term borrowing	180,254,395	95,509,737
Shareholder's equity:		
Issued, subscribed and paid up capital	250,000,000	97,400,000
Unappropriated profit	474,914,505	630,315,790
General reserve	2,600,000	2,600,000
	727,514,505	730,315,790
	907,768,900	825,825,527

The Company is not subject to any externally imposed capital requirements other than the ones specified in notes 26.2 and 26.3 below.

Handwritten signature/initials in blue ink.

26.2 Capital Adequacy level

The Capital Adequacy Level as defined by the Central Depository Company of Pakistan Limited (CDC) is calculated as follows:

	Note	2023 Rupees	2022
Total assets	26.2.1	1,090,999,819	954,270,550
Less: Total liabilities		(363,485,314)	(223,954,760)
Less: Revaluation Reserves (created upon revaluation of fixed assets)		-	-
Capital adequacy level		727,514,505	730,315,790

26.2.1 While determining the value of the total assets of the TREC Holder, Notional value of the TRE certificate as at year ended as determined by Pakistan Stock Exchange has been considered.

26.3 Liquid Capital [as per the requirements of the Securities Brokers (Licensing and Operations) Regulations, 2016]
